BUSINESS TECHNOLOGY SUMMIT 2024

Simplify Operations in The Warehouse

THE 6 KEYS TO SUCCESS IN YOUR SUPPLY CHAIN

tasklet

HOUSEKEEPING

Please silence your phones. If you need to take a call, feel free to step outside and come back in.

Sessions are being recorded and will be available after.

Please use this QR code to take the session survey before heading to the next session.

Survey responses get you more entries into the raffle at the end of the day. (Prizes included surface headphones, smart ray bans, rayban meta smart bluetooth glasses, and lots more).

Mobile WMS

Agenda

- Welcome to the session

  Tasklet Introduction

    – Purpose, Value and Logic of Tasklet
- The 6 Keys to Success in Your Warehouse
- Live Demo (how Tasklet can help)
  - End to end Warehouse Demonstration
- Roadmap
- Q&A

tasklet

Ed Willoughby
Head of US Sales

Ivan Yambo
Senior Solutions Specialist

Tasklet Introduction

tasklet

Mobile WMS

Introduction to Tasklet

- Mobile WMS for Microsoft Dynamics
- Founded in 2008
- Global Partner Network
- 1500 customers in 36+ countries
- Offices in Denmark and US

tasklet

Tasklet's 6 Keys to Success

1. Layout and Design
2. Labeling and Barcodes
3. Embracing Tech
4. Employee Training and Lean Processes
5. Insights and Analytics
6. Keep it Simple!

tasklet

Layout and Design

Challenge: Lots of options, where to start?

- This is the most important part of the whole operation. A clumsy layout or design can really hamper your processes.

1. Space Utilization and workflow efficiency
2. Accessibility and safety
3. Inventory – sku velocity and ease of tracking items

- Companies like JourneyTeam, hardware suppliers like Barcom can be invaluable here.

Labeling and Barcodes

The Challenge: Where to start? What to use?

- Over 100 types
- 1D versus 2D (use a scanner with an imager for 1D and 2D)
- The 1d's -EAN, UPC and GS1-128 or The 2d's – GS1 DataMatrix and GS1 QR
- Barcoding for locations and placements in the warehouse

tasklet

Embrace Technology

Challenge: Tech is too expensive, what we have works…..kinda!

- Hardware:

1. Durablity of device needed?
2. Cold Specifications
3. User needs like long range scanning

- **Software** – WMS value can be found in cycle counts that save days of counting, complete visibility and actual guardrails to stop wrong shipments.

CAT Sports - annual inventory counts stretched over **4 agonizing days**, riddled with mistakes. Misspelled product codes, wrong numbers—you name it. But this year? Blink, and it was done in **less than 2 days**.

Superior Fireworks – runs 3 times the volume with minimal changes in staffing since bringing in NAV and Tasklet

Employee Training and Lean Processes

Challenge: Customers need their goods, training new people takes time!

- Training can feel like a juggling act with daily operations. If this is something that is too difficult maybe your set up is too complex. Cross train to help with staffing which we see as a concern in this industry
- Standardized work, visual management to help with processes
- Waste reduction and continuous improvement
- Simple methodology – identify, test, standardize, repeat

tasklet

Insights and Analytics

- Power BI, Jet reports

tasklet

Keeping it Simple!!!

Challenge: So many options how does it not t convoluted
